Developments with larger than 1" service provide their own lateral connection. All meters shall be purchased from the Town.

Meters that are larger than 1" are required to have a strainer and installation is to be completed by a contractor.

Large fire or sprinkler service connections are made by the developer at his expense according to the printed specifications we have. Kenny is consulted during installation for inspection purposes.

An \$800 refundable deposit will be charged for the use of the hydrant meters.
